

design **TOSCANO**[®]
INSTRUCTIONS
 FOR YOUR **PRODUCT**

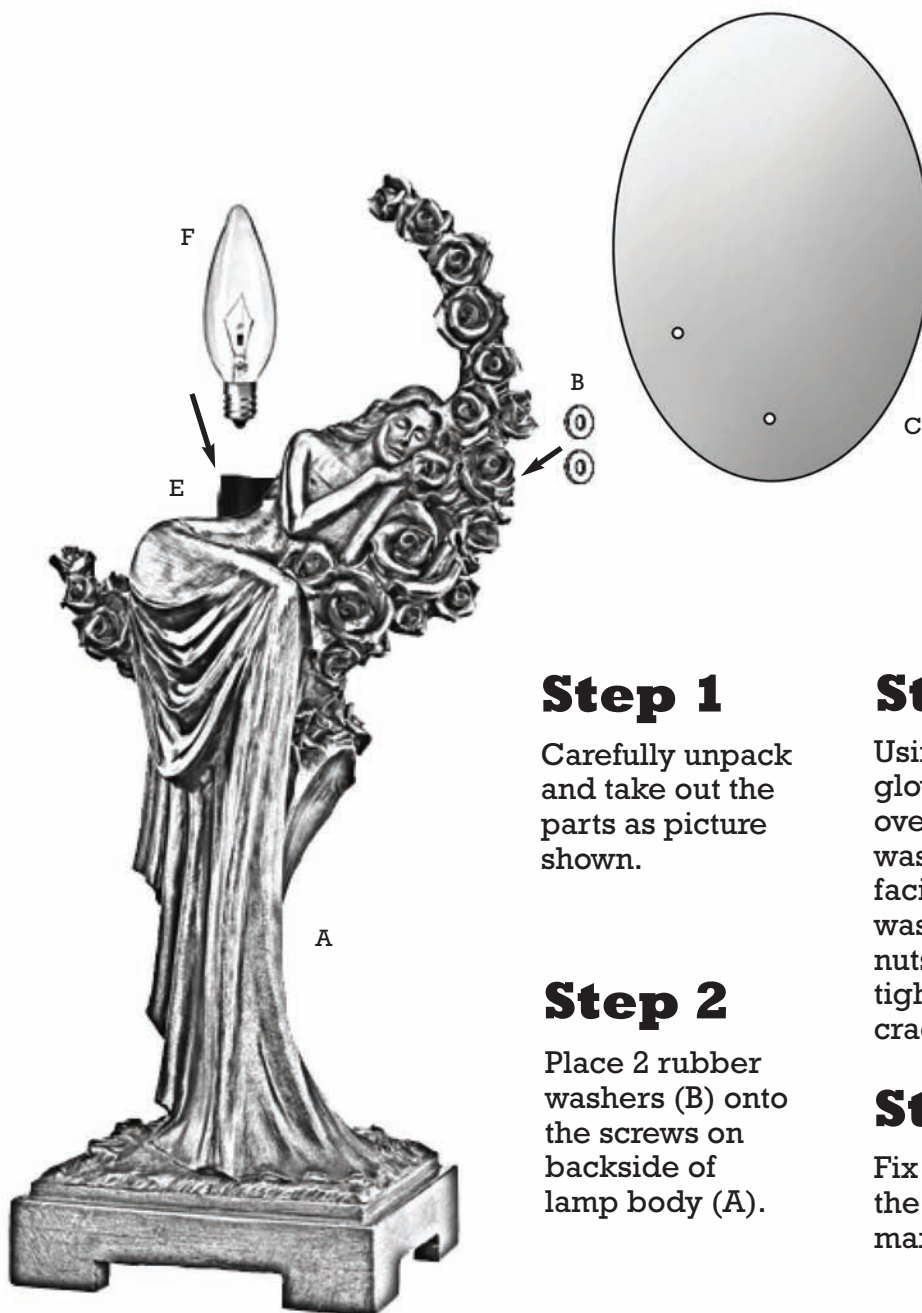

Thank you for your recent purchase of this Design Toscano Illuminated Statue.

Please review these instructions and assemble this piece with care.

Note: Requires 120V/25W type B bulb (not included).

Always switch off and unplug from power supply before installation and un-installation.

Any adjustment or repairing on the the lamp must be done by qualified electricians.

Step 1

Carefully unpack and take out the parts as picture shown.

Step 2

Place 2 rubber washers (B) onto the screws on backside of lamp body (A).

Step 3

Using the plastic bag packing "as a glove" place the round glass (C) over the screw threads behind (B) washers with frosted side of glass facing front, place additional washers (B), then secure glass with nuts (D) only hand tight. Do not over tighten as it may cause the glass to crack. Remove plastic bag.

Step 4

Fix the bulb (F) (not included) into the lampholder (E) observing the maximum wattage on the label.
